Professional Experience

turphdesign Greenwich, NY

Information Designer [*May 00 - Present*]

Providing information and graphic design services to software development organizations in various industries. Interaction with Client, Design, and Production teams to complete projects successfully. Services include:

- Expert user interface designer with proven track record of shipping enterprise applications and products
- Skilled at gathering and refining functional requirements and defining product specifications
- Significant experience creating site maps, flow diagrams, wireframes, use cases, persona-based scenarios and functional requirements documents
- Expert in human factors principles in information design
- HTML, Simple Javascript, CSS , Photoshop, Illustrator, Dreamweaver, MS Office
- Strong understanding of technical concepts, environments, constraints and capabilities

Clients include: BizLogix, Charles River Associates, Geode Capital Management, Pragmatech, RSA Security, Spire, Supply Chainge, Taxware, Wrycan.

Worldstreet Corporation Boston, MA

UI Designer [*September 99 - December 01*]

Responsible for UI and graphical design of WorldStreet Sales and WorldStreet Net applications. Duties included creation of mock-ups and prototypes in HTML, Flash and Visual Basic based on features for the next release. I present my work to Product Management and Client Services to validate and approve workflow and design. Throughout development, assist Architecture, Server Side and Client Side development leads to modify or redesign UI based on development constraints.

Allen & Gerritsen, Inc. Watertown, MA

Interactive Designer [*March 98 - September 99*]

Responsible for the design and development of internet and extranet based communication solutions. As Interactive Designer, my duties included information architecture development, UI design, HTML templete construction, graphics creation and limited database design and integration. Acted as single point of contact between agency, client and off-site programmers.

Studio Artist [*January 97 - March 98*]

Responsible for executing concepts based on the effective and impactful translation of the creative department's strategies. Worked closely with Art Directors and Creative Directors to ensure each assignment met high standards of the agency.
